

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

SCIENTIFIC BOOKS

THE CONTROL OF HUNGER IN HEALTH AND DISEASE

By ANTON JULIUS CARLSON, *Professor of Physiology at the University of Chicago.*

A summary of the work of the stomach, with special reference to hunger and appetite, carried on at the Hull Physiological Laboratory, at the University of Chicago during the last four years. 219 pages. Price \$2.00 net.

University of Chicago Press, Chicago, Ill.

STATE SANITATION

By GEORGE CHANDLER WHIPPLE, *Professor of Sanitary Engineering at Harvard University. Member of the Public Health Council, Massachusetts State Department of Health.*

The primary object of this book is to set forth the past work of the Massachusetts State Board of Health, so that it may be known by the people of the present generation. 377 pages.

The Harvard University Press, Cambridge, Mass.

PRINCIPLES OF OCEAN TRANSPORTATION

By EMORY R. JOHNSON, Ph.D., Sc.D., *Professor of Transportation and Commerce of the University of Pennsylvania*, and GROVER C. HUEBNER, Ph.D., *Assistant Professor of Transportation and Commerce at the University of Pennsylvania.*

This book embodies all the principal changes that have recently occurred in methods of ocean transportation throughout the world. Illustrated with half-tones, maps and diagrams. 513 pages.

D. Appleton and Company, New York City

DESCRIPTIVE MINERALOGY

By WILLIAM SHIERLEY BAYLEY, *Professor of Geology at the University of Illinois*

A text-book for college classes, designed to give the student a comprehensive view of modern mineralogy, rather than a detailed knowledge of many minerals. 268 illustrations. 542 pages.

D. Appleton and Company, New York City

INORGANIC CHEMISTRY

By ALEXANDER SMITH, *Professor of Chemistry in Columbia University.*

A thorough treatise of inorganic chemistry for students beginning this study in college, university or professional schools. Third edition. 925 pages.

The Century Co., New York City

SOIL PHYSICS AND MANAGEMENT

By J. G. MOSIER, B.S., *Professor of Soil Physics, University of Illinois*, and A. F. GUSTAFSON, M.S., *Assistant Professor of Soil Physics, University of Illinois.*

The publication of this book fulfills three purposes: First, a text-book for agricultural students; second, a reference book for the practical farmer; and, third, an aid to the landowner who desires information in the management of his land. 202 illustrations. 442 pages.

J. B. Lippincott and Company, Philadelphia, Pa.

FIELD BOOK OF INSECTS

By FRANK E. LUTZ, *Associate Curator, Department of Invertebrate Zoology, American Museum of Natural History*

A popular treatise of the more common insects, with special reference to those of the Northeastern United States. 800 illustrations. 409 pages. Price, \$2.50 net.

J. P. Putnam's Sons, New York City

A TEXT-BOOK OF PRECIOUS STONES

By FRANK B. WADE, B.S., *Head of the Department of Chemistry, Shortridge High School, Indianapolis, Ind.*

This book presents, in as natural an order as possible, the fundamental principles and methods in use for identifying precious stones. 318 pages. Price, \$2.00 net.

J. P. Putnam's Sons, New York

COMPARATIVE ANATOMY OF VERTEBRATES

By J. S. KINGSLEY, *Professor of Zoology at the University of Illinois*

A text-book of comparative anatomy, laying special emphasis on the embryological side of the study. Second edition. 406 illustrations. 449 pages. Price, \$2.00 net.

P. Blakiston's Son and Company, Philadelphia, Pa.

TOPOGRAPHY AND STRATEGY IN THE WAR

By DOUGLAS WILSON JOHNSON, *Associate Professor of Physiography, Columbia University.*

This book treats the relationship between inanimate nature and the science of war and gives a picture of the different war fronts in order that the military campaigns of the war may be followed with greater ease. 211 pages. \$1.75 net.

Henry Holt & Co., New York

GENERAL ZOOLOGY

By A. S. PEARSE, *Associate Professor in the University of Wisconsin.*

This book has been written to be read by students of eighteen to twenty years of age. With this idea in view both the illustrations and text have been prepared more in the style of a natural history than of an anatomy. 386 pages.

Henry Holt & Co., New York

HISTORY OF MEDICINE

By FIELDING H. GARRISON, *Principal Assistant Librarian, Surgeon General's Office, Washington, D. C.*

This volume has been written with a definite intention of stimulating the student to do his own thinking and research, by interesting him in the subject from the start. 905 pages. Cloth \$6.50 net.

W. B. Saunders Co., Philadelphia, Pa.

A SHORT HISTORY OF SCIENCE

By W. T. SEDGWICK and H. W. TYLER, *of the Massachusetts Institute of Technology.*

This volume seeks to furnish the student and the general reader with a concise account of the origin of our scientific knowledge and scientific methods. 474 pages. Price \$2.50 net.

The Macmillan Co., New York

EVERYMAN'S CHEMISTRY

By ELLWOOD HENDRICK, New York City.

This book aims to give to the average man a general realization of the tremendous importance of chemistry and its application in actual life. 373 pages.

Harper & Brothers, New York

SCIENCE PROGRESS

A QUARTERLY REVIEW OF SCIENTIFIC THOUGHT, WORK AND AFFAIRS

EDITED BY SIR RONALD ROSS, F.R.S., D.Sc., M.D., Etc.

SCIENCE PROGRESS owes its origin to an endeavor to found a scientific journal containing original papers and summaries of the present state of knowledge in all branches of science. The necessity for such a journal is to be found in the fact that, with the specialization which necessarily accompanies the modern development of scientific work and thought, it is increasingly difficult for even the professional man of science to keep in touch with the progress achieved and the trend of thought in subjects other than those in which his immediate interests lie. This difficulty is felt by teachers and students in schools and colleges, and by the general educated public interested in scientific questions. SCIENCE PROGRESS claims to have filled this want.

Published early in January, April, July, and October, by John Murray, 50a, Albemarle Street, London, W., England. Annual Subscription, \$4.80 (including postage). Single numbers \$1.20 (postage 10 cents).

The Philippine Journal of Science

ALVIN J. COX, M.A., Ph.D., General Editor

Published by the Bureau of Science
of the Government of the
Philippine Islands

A Periodical Devoted to the Scientific and Commercial
Interests of the Tropics

The Journal, now in its twelfth volume, is issued in four sections. Each section consists of six numbers a year, in separately paged and indexed, and is a complete publication in itself.

YEARLY SUBSCRIPTION RATES

Section A. Chemical and Geological Sciences and the Industries.....	\$2.00
Section B. Tropical Medicine.....	3.00
Section C. Botany	2.00
Section D. General Biology, Ethnology and Anthropology	2.00
The four sections to one subscriber.....	7.00

A complete list of the publications of the Philippine Bureau of Science and a sample copy of the Philippine Journal of Science will be sent upon request.

Subscriptions and orders for publications should be sent to

SCIENCE

A WEEKLY JOURNAL DEVOTED TO THE ADVANCEMENT OF SCIENCE

FRIDAY, JANUARY 3, 1919

The American Association for the Advancement of Science:—
The Problem of Radioactive Lead: Professor Theodore W. Richards.

The Baltimore Meeting: Professor O. E. Jennings.

Scientific Events:

The Katmai National Monument; Agricultural Production in the United States; The Edward K. Warren Foundation and Two Wild Life Reservations in Michigan; The Organization of Yale University and the Sheffield Scientific School.

Scientific Notes and News.

University and Educational News.

Discussion and Correspondence:—

Lantern Slides of Northern France: Professor W. M. Davis. Biological Literature in English: Frank A. Spragg. A Flowing Artesian Well at Winslow, Maine: Professor Homer P. Little.

Scientific Books:—

Klein on Principles and Practice of Milk Hygiene: Professor Leo F. Rettger.

Special Articles:—

The Oviposition Habit of *Gastrophilus nasalis* L.: A. E. Cameron.

Annual Subscription \$5.00

FRIDAY, JANUARY 10, 1919

The American Association for the Advancement of Science:—
The Need of Conservation of our Vital and Natural Resources as emphasized by the Lessons of the War: President Henry Sturgis Drinker.

Chemistry and Medicine—a Tribute to the Memory of John Harper Long: Professor Julius Stieglitz.

Scientific Events:

Biological Surveys of States by the United States Department of Agriculture; The Census Bureau; The Bureau of Standards.

Scientific Notes and News.

University and Educational News.

Discussion and Correspondence:

Two New Instances of Polyembryony among the Encyrtidæ: Dr. L. O. Howard. The Foundations of Mechanics: Paul J. Fox. Tropical Enervation: Vaughan MacCaughy.

Scientific Books:—

Young on Stoichiometry: Professor J. Livingston Morgan. The Proceedings of the National Academy of Sciences: Professor Edwin B. Wilson.

Special Articles:—

On the Nature of the Pigmentation Changes following Hypophysectomy in the Frog Larva: Wayne J. Atwell.

The Paleontological Society: Dr. R. S. Bassler.

The American Psychological Association: Professor Herbert Sidney Langfeld.

The Optical Society of America: Dr. P. G. Nutting.

SCHOOL AND SOCIETY

A weekly journal covering the field of education in relation to the problems of American democracy

Edited by J. McKEEN CATTELL

SATURDAY, DECEMBER 21, 1918

The General or Composite Industrial School in the City of less than Twenty-five Thousand Population: F. J. Kelly.
What should constitute the Curriculum of the Junior College or Extended High School: Frederick E. Bolton.
The Students' Army Training Corps: Richard C. Maclaurin.
Educational Events:
Egyptian Schools; The School of Education of Boston University; A Woodrow Wilson Chair of International Politics; Andrew Dixon White.
Educational Notes and News.
Discussion and Correspondence:
Freedom for the School: Franz Boas.
Quotations:
School Administration and Teachers.
Books and Literature:
The History of Science: Louis C. Karpinski.
Educational Research and Statistics:
The Reed I. Q. Slide Rule: Dr. S. C. Kohs.

SATURDAY, JANUARY 4, 1919

Defects in American Education revealed by the War: Charles W. Eliot.
The "Policies" of the Carnegie Company: J. McKeen Cattell.
Educational Events:
The University of Paris and President Wilson; The Presidency of the University of Wisconsin; Reorganization of Yale University; Military Training in Colleges; Federal Child-Labor Legislation: Positions under the Board for Vocational Training.
Educational Notes and News.
Discussion and Correspondence:
Mathematics and General Education: Charles N. Moore.
"How Long, Oh Catiline . . . ?": C. H. Ibershoff.
Quotations:
The Supply of Teachers.
The American Council on Education and International Educational Relations: Robert L. Kelly.
Educational Research and Statistics:
The Distribution of the Membership of the American Association of University Professors.
Societies and Meetings:
The Chicago Meeting of the Department of Superintendence.

SATURDAY, DECEMBER 28, 1919

Vocational Education after the War: David Snedden.
The S. A. T. C. Idea, a Possible Solution of some of the Social and Military Problems of Democracy: A. Monroe Stowe.
Insurance and Annuities for College Teachers: Clyde Furst.
Educational Events:
Charles Richard Van Hise; The Harvard School of Engineering; The De Lamar Bequests for Medical Research; Reserve Officers Training Corps in the Colleges.
Educational Notes and News.
Discussion and Correspondence:
The Proposed National Federation of Modern Language Associations: C. H. Handschin.
Quotations:
The Colleges after the War.
Teaching the Classics in the Schools.
Educational Research and Statistics:
The High-school Curriculum—a Statistical Study of Accredited four-year High Schools in South Dakota: Herbert Patterson.

SATURDAY, JANUARY 11, 1919

What is Transfer of Training? B. H. Bode.
The Selection of Text-books: C. R. Maxwell.
Educational Events:
The Admission of Students to Harvard University; The Americanization Movement; Educational Opportunities for the American Expeditionary Force; The Association of American Colleges.
Educational Notes and News.
Discussion and Correspondence:
Extra Summer Session Credit: R. M. West.
Quotations:
The School Medical Service of Great Britain.
Louisiana's Educational Progress.
Educational Research and Statistics:
Preliminary Courtis Tests in North Dakota: John W. Todd

An Announcement

Our activities for the past year have been nearly 100 per cent. devoted to war production of vital importance to the government, compelling us to discontinue regular manufacture in practically all of our lines.

The cessation of hostilities has now enabled us to begin the readjustment to a peace production basis. While this adjustment must be gradual, we are pressing it with all possible speed in order to satisfy the requirements of our normal trade at an early date.

We appreciate the patience and understanding with which our patrons have reacted to the situation and trust they may continue to exercise such consideration until our manufacturing facilities are once more on a pre-war footing.
